SUMMARY

Computer Science graduate with diverse experience in full-stack web development, e-commerce operations, sales and marketing, data analysis, and truck dispatching. Skilled in building web applications using the MERN stack, Next.js, TypeScript, Python, and RESTful APIs, with experience in database management, secure authentication, and responsive UI development. Proficient in marketplace management, product listing optimization, SEO, PPC campaign management, sales performance analysis, and Microsoft Excel. Strong analytical, problem-solving, communication, and coordination skills, with a focus on leveraging technology and data-driven insights to improve business performance and operational efficiency.

CORE SKILLS

- **Web Development:** JavaScript (ES6+), TypeScript, React.js, Next.js, Node.js, Express.js, Python, FastAPI, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- **Backend & Databases:** RESTful APIs, API Integration, CRUD Operations, Authentication & Authorization, JWT, PostgreSQL, MySQL, MongoDB, SQLite, Database Design, Prisma ORM
- **Software Engineering & Tools:** Object-Oriented Programming (OOP), MVC Architecture, Git, GitHub, Docker, Postman, VS Code, CI/CD, Vercel, Netlify
- **AI & Data Analytics:** AI API Integration, Prompt Engineering, Python Data Analysis, Pandas, NumPy, Microsoft Excel, KPI Reporting, Data Visualization
- **E-commerce & Marketplace Operations:** Amazon, eBay, Walmart, Etsy, TikTok Shop, Product Listing Optimization, Marketplace SEO, Competitor Analysis, Sales Analytics, PPC Campaign Management, Meta Ads, ROI Analysis
- **Truck Dispatching & Logistics:** Freight Dispatching, Load Booking, Freight Coordination, Broker & Driver Communication, Rate Negotiation, Shipment Tracking, Pickup & Delivery Scheduling, Dispatch Documentation

EXPERIENCE

Truck Dispatcher | Sky Bridge Solutions
August 2026 – October 2026

- Coordinated daily truck dispatching operations by matching available drivers and equipment with suitable freight loads while managing pickup and delivery schedules and shipment requirements.
- Evaluated load weight, dimensions, commodity type, equipment requirements, and load securement needs; communicated with brokers and drivers regarding load availability, rate negotiations, load confirmations, and dispatch documentation.
- Supported shipment tracking and timely deliveries by monitoring freight progress, addressing scheduling delays, and applying knowledge of freight terminology, including detention, layover, TONU, and accessorial charges.

Full-Stack Developer | Online Experts
Remote | May 2026 – August 2026

- Developed full-stack web applications, including a Learning Management System (LMS) and NextTripy, a car and hotel rental marketplace, based on project requirements.
- Built responsive frontend interfaces and backend functionality using React.js, Next.js, TypeScript, Node.js,

Express.js, PostgreSQL, Prisma ORM, and RESTful APIs.
- Implemented role-based dashboards, authentication, database operations, course management, rental listing workflows, and third-party integrations, gaining practical experience in remote development and client-focused delivery.

E-Commerce Brand Manager & Operations/Data Analyst | Amtex Limited
Faisalabad | June 2025 – April 2026

- Managed e-commerce brand operations, product catalogs, launches, and sales performance across 9+ global marketplaces, including Amazon, Walmart, eBay, Etsy, TikTok Shop, Temu, Alibaba, Mercari, and Faire.
- Analyzed sales, conversion rates, KPIs, and advertising performance using Microsoft Excel, KPI reporting, data visualization, competitor research, marketplace SEO, keyword optimization, PPC campaigns, and Meta Ads to identify growth opportunities and evaluate ROI.
- Supported data-driven business decisions and operational efficiency through sales trend analysis, product listing optimization, catalog accuracy, inventory workflow coordination, and cross-functional collaboration.

PROJECTS 🔗

Swift-LMS | Learning Management System Web Application

- Developed a full-stack LMS with role-based dashboards for students, instructors, and administrators, supporting course management, enrollment, assignments, quizzes, progress tracking, live classes, and certificate generation.
- Implemented RESTful APIs, CRUD operations, JWT authentication, email OTP verification, PostgreSQL database integration using Prisma ORM, and Zoom Meeting SDK integration for virtual classes.

NextTripy | Car & Hotel Rental Marketplace Web Application

- Built a full-stack car and hotel rental marketplace for Pakistan and Saudi Arabia, featuring listing management, booking workflows, role-based dashboards, subscription management, and administrative approvals.
- Developed secure RESTful APIs using Next.js, TypeScript, Prisma ORM, and PostgreSQL, implementing JWT authentication, responsive UI, email notifications, and WhatsApp-based booking inquiries.

Swift Parcel | Parcel Delivery Management Web Application

- Developed a full-stack parcel management platform with customer, administrator, and delivery personnel dashboards for parcel booking, delivery assignments, payment management, and shipment tracking.
- Implemented RESTful APIs, CRUD operations, JWT authentication, SQLite database integration using Sequelize, responsive interfaces with React.js and Tailwind CSS, and customer-to-admin inquiry messaging.

EDUCATION

Bachelor of Computer Science | University of Education, Lahore (2022-2026)

Certifications

MERN Stack Development | Tech Hub Systems
Completed professional MERN Stack training with hands-on experience in MongoDB, Express.js, React.js, and Node.js, developing full-stack web applications and RESTful APIs using Git/GitHub.
